

# ON THE SCENE | San Diego Business Journal Event

The San Diego Business Journal held its 3rd annual Innovation Awards at the equally inventive Scripps Seaside Forum with its scenic oceanfront views and contemporary award-winning architecture. Festivities Catering provided its own brand of culinary creativity to complement the theme of the event. Organizations and individuals were honored for their ingenuity, creative genius and groundbreaking research discoveries. This recognition event was inspired by the breakthrough technologies and unique new products developed by San Diego companies in a broad spectrum of disciplines from revolutionary cancer treatment to sustainable energy. Highlighting the event was a presentation of a special Lifetime Achievement Award to philanthropist and innovative pioneer Peter Preuss.

The awards reception, held on Wednesday, June 11, was attended by 265 guests and supported by title sponsor Opus Bank, along with gold sponsor ESET North America.
